- WE ROUTINELY TREAT ALL ANIMALS FOR EXTERNAL AND INTERNAL PARASITES AS NECESSARY. If your pet develops loose stools secondary to diet change or excitability, this will be medically managed at your expense. Be sure they are up to date on vaccinations and are free of parasites. As we are sure you understand, this is for the protection of all other animals here, as well as your own. If your pet has received vaccinations elsewhere, please provide proof of those vaccines and the dates they were given. If your pet(s) is overdue for an intestinal parasite exam, (stool check, to be done every 6 months on boarding patients), then one will be done while your pet(s) is here.
- Please provide written instructions for feeding and medication (if applicable). Be certain that all medications are in their PROPERLY LABELED ORIGINAL CONTAINERS. **NOTE:** there will be an additional fee for medicating your pet during his/her stay.
- Although we take every precaution necessary to keep you pet(s) safe, happy and healthy while here; we cannot prevent natural disasters, break-ins or fires. Upon signing this release, you will not hold Animal Care of Gloucester, its staff and/or doctors liable for any of the above mentioned things.
